Inside Your Home
- Please measure the width and height of your entry doorway, interior doorways and staircases including any landings or curves in the staircase. Though your furniture may not fit straight into your doorway, our delivery drivers may carry your furniture through the doorway vertically or at an angle.

Apartments & Condos
- For apartment buildings, condos or homes with elevators, it is important to measure the elevator interior height, elevator opening and opposite wall distance to ensure furniture will fit. If your building has a freight elevator, please reserve it in advance. Please measure the hallway in front of your doors as well.
