

Theragun Prime (6th Generation) PDP Copy

Product Name

Therabody Theragun Prime (6th Generation) Massage Gun – Deep Powerful Massage in a Rugged, Durable Design

Product Description

Theragun Prime (6th Generation) delivers scientifically proven powerful percussive therapy in our most durable design yet — built to withstand intense training, outdoor adventures and everyday wear and tear. Its impact-resistant rubber exterior and reinforced corners protect against drops up to 10 feet, making it ideal for the most demanding lifestyles.

Simple one-button controls let you adjust massage intensity across 5 speeds, while the patented triangle grip - now with a wider opening for easier handling - ensures a secure, comfortable hold and better leverage to reach every muscle. Real-time LED indicators show how much pressure you're applying, and the quiet, adaptive motor maintains speed and power under pressure to prevent stalling. Apply up to 35 lbs. of force to work through deep knots and tight muscles, helping relieve pain, improve flexibility and accelerate recovery.

With a 2-hour battery life and 2 versatile attachments for full-body recovery, Theragun Prime keeps pace with your toughest days. Bluetooth connectivity unlocks app control via the Therabody app, where you can adjust settings, monitor pressure levels and follow guided routines. Plus, Coach by Therabody - included free in the app – creates personalised recovery plans based on our goals and activity data, helping you stay consistent with your recovery.

Product Features

1. Our most powerful percussive massage therapy, scientifically proven to relieve aches and pains, increase flexibility and speed up recovery — trusted by athletes for daily performance.
2. Built with a rugged TPU rubber exterior and reinforced corners to withstand heavy use and accidental drops up to 10 feet, making it ideal for intense training and active lifestyles.
3. Quiet, adaptive motor maintains consistent speed and power under pressure to prevent stalling, with up to 2 hours of battery life for uninterrupted recovery.
4. One-button operation and LED indicators make it easy to switch between 5 massage speeds and monitor real-time pressure levels.
5. Patented triangle grip with a new wider opening ensures a secure, comfortable hold and makes it easier to reach hard-to-access muscles like your back and shoulders.
6. Includes 2 versatile attachments for full-body recovery: Dampener for sensitive areas and Standard Ball for all-over recovery across muscles of all sizes.
7. Bluetooth connectivity enables app control via the Therabody app, where you can adjust settings, track pressure and follow guided routines. Use Coach by Therabody, free in the app, to access personalized recovery plans based on your goals and activity data.
8. Science is the foundation of Therabody's product development, with 26 completed studies, 25 ongoing, and 75,000 supporting scientific articles. Every product is scientifically validated from concept to completion for trusted results. Theragun Prime (6th Generation) is an FDA-registered medical device.
