WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

From the **LEGO®** **Pokémon™** Trainers

Recreating Pikachu's cute and curved shapes and dynamic pose in LEGO® bricks was a fun design challenge – and we hope this comes across in your building experience! In LEGO building, the simpler a shape appears, the more challenging it is to build. The bottom of Pikachu's face, for example, uses a combination of clips and bars, reversing the studs' direction to connect it to the rest of the head. New LEGO elements helped us recreate Pikachu's smooth shapes, proportions, fierce personality and – not least – cuteness! Even the tail required design workarounds, and the central support structure had to be sturdy enough to hold 1,300 LEGO elements and still have a hollow space for the secondary stand. You can pose your Pikachu in mid-leap from the Poké Ball, ready to jump into action as your battle buddy or off the structure, just looking straight-up adorable!

Un mot des Dresseurs **LEGO® Pokémon™**

Recrear las formas mignonnes et incurvées de Pikachu et sa pose dynamique en briques LEGO® a été un défi de conception amusant, et nous espérons que cela se ressentira dans votre expérience de construction! En construction LEGO, plus une forme semble simple, plus elle est difficile à construire. La partie inférieure du visage de Pikachu, par exemple, utilise une combinaison de clips et de barres, en inversant la direction des tenons pour la relier au reste de la tête. De nouveaux éléments LEGO nous ont permis de recréer les formes et les proportions douces de Pikachu, sa personnalité féroce et, surtout, son côté mignon! Même la queue a nécessité des modifications de conception, et la structure de support centrale devait être suffisamment solide pour accueillir 1 300 éléments LEGO tout en laissant un espace vide pour le socle secondaire. Vous pouvez placer votre Pikachu en train de bondir hors de la Poké Ball, prêt à passer à l'action pour devenir votre compagnon de combat, ou en dehors de la structure, tout simplement adorable!

Impresiones de los Entrenadores de **LEGO®** **Pokémon™**

Recrear las adorables curvas de Pikachu y su pose dinámica con bricks LEGO® fue un divertido desafío de diseño, ¡y esperamos que esto se refleje en tu experiencia! Cuando reimaginas algo con LEGO, cuanto más simple parece su forma, ¡más desafiante es de construir! Por ejemplo, en la parte inferior de la cara de Pikachu se usa una combinación de sujeciones y barras que invierten la orientación de las espigas para conectarla con el resto de la cabeza. Una serie de nuevos elementos LEGO nos ayudaron a recrear las líneas fluidas del cuerpo de Pikachu y su feroz personalidad,

¡sin olvidarnos de su gran ternura! También fue necesario encontrar soluciones ingeniosas para la cola y la estructura de soporte central, que no solo debía sostener 1300 elementos LEGO, sino también contar con un espacio hueco para el soporte secundario. Puedes colocar a tu Pikachu en pleno salto desde la Pokébola, listo para entrar en acción como tu compañero de batalla, ¡o separado de la estructura solo para que se vea adorable!
