|----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
|  | 4 stars freezing compartment for better food preservation.                                                                                                                                                                              |  | The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether. |
|  | Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.                                                                                              |  | LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.           |
|  | Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption. |  | Air plus: keeps food fresher for longer.                                                                                        |
