

# STICKLEY®

The Hawley power motion group combines state-of-the-art technology with must-have style and comfort. Its sofa, loveseat, and wall recliner all feature an updated modern track arm that sweeps up into the back; precise top-stitching outlines plush, curved padding on the arm's top. A two-button power panel inside the arm with USB charging port controls the space-saving wall-hugger recline and articulating headrests. Each piece is finished with thick, plush cushions and low-profile block feet in solid maple. Available in six top-grain Sorrento and Futuro leathers for Express Ship.
