Signature Features

FLEX DUO™ WITH DUAL DOOR

- Flex Duo™ with Dual Door design provides ultimate cooking flexibility.
- Includes two independent temperature controls and convection systems, separated by a removable Smart Divider, so you can cook multiple dishes simultaneously. Plus, you can access just the top compartment or the full oven with the hinged door.

SOFT CLOSE DOOR

- Gently closes oven door for peace and quiet.
- Hinges will catch it a few centimeters before the door closes to avoid slamming.

WIFI CONNECTIVITY

- Remotely monitor your cooktop and control your oven with WiFi capability.
- Cook from anywhere: Use your smart phone to remotely monitor for safety, turn the oven off and adjust the time and temperature.

NX58K7850SS

5.8 cu. ft. Flex Duo™ Freestanding Gas Range with Dual Door and WiFi Connectivity

Installing Your Range

*30" minimum clearance between the top of the cooking surface and the bottom of an unprotected wood or metal cabinet; or 24" minimum when the bottom of the wood or metal cabinet is protected by not less than 1/4" flame-retardant millboard covered with not less than no.28 MSG sheet steel, 0.015" stainless steel, 0.024" aluminum or 0.020" copper.

**15" minimum between the countertop and the adjacent cabinet bottom.

IMPORTANT: To eliminate the risk of burns or fire caused by reaching over heated surface units, cabinet storage space located above the surface units should be avoided. If cabinet storage is to be provided, the risk can be reduced by installing a range hood that projects horizontally a minimum of 5" beyond the bottom of the cabinets.

Total Power (BTU)
57K

Power Source
120V/60Hz

Stainless Steel Five-Burner Cooktop (BTU)
