Care for Showerheads and Handshowers

Hold the sprayer 6"– 8" from the surface and spray the area.
Wipe with a dry towel or cloth.

On unfamiliar surfaces, test in a small, inconspicuous area first.

[Buy Faucet Cleaner](#)

Cleaning Tips

- Rub sprayface and nozzles with a soft, damp sponge or cloth. Run the water and repeat if necessary.
 - Never use an abrasive material such as a brush or scouring pad to clean surfaces.
-
