

CUSTOM 15" INDUCTION COOKTOP

Signature Features

INDUCTION TECHNOLOGY

Cooks like gas, looks like electric, outperforms both. By converting cookware into the heat source, induction technology gives you fast, efficient and outstanding cooking power.

GLASS-TOUCH ELECTRONIC CONTROLS

Intuitive controls are highly responsive to a light touch, increasing usability while making it easy to clean the cooking surface.

INDUCTION BRIDGE ELEMENT

Expands the cooking surface by combining two induction elements into one larger, oval-shaped element for use with longer cookware such as griddles or Dutch ovens.

PAN DETECTION

A sensor detects your cookware before enabling an element. When it is removed, the element automatically switches off after 30 seconds.

FLEXIBLE INDUCTION ELEMENTS

These elements offer the flexibility to cook using different sizes of cookware on the same element.

Technical Specifications

Cooktop Details

- Automatic Pan Detection: Yes
- Downdraft Vent: No
- Heating Element On Indicator Light: Yes
- Hot Surface Indicator Light: Yes
- Power Outage Compatible: No
- Cooktop Element Style: Induction
- Cooktop Surface Material: Ceramic Glass
- Number of Cooking Element-Burners: 1
- Center Front Element-Burner Power: 3700W
- Center Rear Element-Burner Power: 3700W

Appearance

Digital Display: No

Configuration and Overview

- Size: 15 in
- Cooktop Type: Custom
- Fuel Type: Electric Induction
- LP Convertible: No
- Installs Over Built-In Oven: Yes
- Power Boost: Yes
- UL: UL
