IMPORTANT SAFETY INSTRUCTIONS

When using an electric product,
basic precautions should always be
followed, including the following:

**Read all instructions before using this
product.**

DANGER

To reduce the risk of electric shock:

- Do not reach for a corded product
that has fallen into water. Unplug
immediately.
- The power cord and the accessories
connected to it are not for
immersion or for use in shower.
- Do not use an extension cord with
this product.
- Do not place or store the product
where it can fall or be pulled into
a tub or sink, water or other liquid
while plugged in.
- Always unplug this product from the
electrical outlet immediately after
(re)charging.
- Unplug and remove power supply
cord from this product before
cleaning.
- The batteries used in this product
may present a fire or chemical
burn hazard if mistreated. Do not
disassemble,
heat above 100°C (212°F) or
incinerate.

WARNING

**To reduce the risk of burns, fire,
electric shock, or injury to persons:**

- Close supervision is required
when this product is used by, on,
or near children, or persons with
limited physical, sensory, or mental
capabilities or invalids.
- Use this product for its intended
household use as described in this
manual. Do not use attachments
not recommended by Philips North
America LLC.
- Never operate this product if it has
a damaged power cord or charging
plug, if it is not working properly, if it
has been dropped or damaged, or
dropped into water while plugged
in. For assistance call 1-800-243-
3050.
- Keep the product, cord and charging
plug and any attachments away
from heated surfaces.
- Never drop or insert any object into
any opening.
- Do not use the adapter in or near a
power outlet that contains an electric
air freshener to prevent damage to
the adapter.
- Do not charge, clean or plug in
product outdoors or operate where
aerosol (spray) products are being
used or where oxygen is being
administered.
- Always check blades and combs
before using the product. Do not
use the product if blades or combs
are damaged, as injury may occur.
- Always attach power cord to
product first, then to outlet. Be
certain plug is inserted firmly into
product up to mark indicated on
plug. To disconnect, turn product
off then remove power cord from
outlet.

- Keep the power cord dry at all
times.
Do not handle with wet hands.
- Never put the product in direct
sunlight or store at a temperature
above 140°F (60°C).
- To prevent possible damage to the
power cord, do not wrap power cord
around the product.
- This product is for use on human
hair only. Do not use the product for
any other purpose.
- Always store the product,
attachments and power cord in
a moisture-free area. Make sure
the cord is disconnected from the
product.
- Do not attempt to open the product
to remove or replace the built-in
rechargeable battery.
- Only use the power cord and other
accessories supplied with the
product.

SAVE THESE INSTRUCTIONS

IMPORTANT: The power plug contains a
transformer. Do not cut off the power plug
to replace it with another plug as this will
cause a hazardous condition.

Introduction

Congratulations on your purchase and
welcome to Philips Norelco!

To fully benefit from the support that Philips
Norelco offers, register your product at

General description (Fig. 1)

- 1 Protective cap
- 2 OneBlade (for face)
- 3 Blade release slide switch
- 4 On/off button
- 5 Battery charge indicator
- 6 Click-on body comb 3mm (1/8in.)
- 7 Click-on skin guard
- 8 OneBlade (for body)
- 9 Click-on stubble comb 1mm (3/64in.)
- 10 Click-on stubble comb 2mm (5/64in.)
- 11 Click-on stubble comb 3mm (1/8in.)
- 12 Click-on stubble comb 5mm (3/16in.)
- 13 Power plug
- 14 Small plug

This symbol indicates that the product can be used in the bath or shower.

Charging

Charging takes approx. 4 hours. Charge the product before first use and when the product starts working more slowly.

- Charging or using the product at temperatures below 40°F (4,5°C) or higher than 95°F (35°C) adversely affects the lifespan of the battery.
- If the product is subjected to a major change in temperature, pressure or humidity, let the product acclimatize for 30 minutes before use.

Battery status indicator

- When the battery status indicator flashes orange, the battery is almost empty (Fig. 2).
- When the product is charging, the battery status indicator flashes green (Fig. 3).
- When the battery is fully charged, the battery status indicator lights up green continuously (Fig. 4).

Note: Approx. 30 minutes after the battery is fully charged or when you disconnect the product from the outlet, the battery status indicator switches off automatically.

Charging with the power cord

- 1 Make sure the product is switched off.
- 2 Insert the small plug into the product and put the power plug in any 120V AC outlet (Fig. 5).
- 3 After charging, remove the power plug from the wall outlet and pull the small plug out of the product.

Operating time

When the product is fully charged, it has a cordless operating time of up to 60 minutes.

Note: An adapter plug may be necessary for cord usage in some foreign countries. Use an attachment plug adapter of the proper configuration for power outlet.

Using the product

Always check the product and all accessories before using. Do not use the product or any accessory if it is damaged, as this may cause injury. Always replace a damaged part with one of the original type.

Your product comes with 2 blades. Use one blade for your face only and the other blade for your body.

The face blade and the stubble combs are for use on facial hair. It is not intended for shaving, edging or trimming hairs on lower body parts or scalp hair.

The body blade and body comb are for use on body parts below the neck.

The body blade with the skin guard attached are for use on sensitive body areas.

Note: This product is for cordless use.

- Use this product for its intended household use as described in this manual.
- For hygienic reasons, the product should only be used by one person.
- Trimming is easier when the skin and hair are dry.
- Use the product with the face blade to trim, edge or shave facial hair (beard, moustache and sideburns). Trim with the stubble comb to obtain a certain length and edge to create perfect edges and sharp lines.

- Use the product with the body blade to trim and/or shave your body hair. Shave your chest without the skin guard or body comb, shave your sensitive areas (e.g. groin, armpits) with the skin guard, use the body comb to trim your body.
- Take your time and practice to give your skin time to adjust.

Switching the product on and off

- 1 Press the on/off button once to switch the product on or off (Fig. 6).

Face

Shaving

- Make sure that the blade is in full contact with the skin by placing it flat on the skin.
- For the best result, move the product against the grain.
- Make long strokes while pressing lightly.
- Use the product dry or wet with gel or foam, even in the shower.
- Shaving a clean beard and face gives the best results.

- 1 Switch the product on (Fig. 6).
- 2 Place the blade on the skin and move the product up or against the grain in long strokes while pressing lightly (Fig. 7).

Note: Make sure you hold the surface of the blade flat against your skin (Fig. 8).

- 3 Switch off and clean the product after every use (see 'Cleaning').

Edging

- Use both edges of the blade to create sharp lines and perfect edges.
 - Hold the product in such a way that the blade is perpendicular to the skin and one of its edges touches the skin. This allows more precise detailing of sideburns and the area around the mouth and nose.
- 1 To create sharp edges and lines, you can use either edge of the blade (Fig. 9).
 - 2 Switch the product on (Fig. 6).
 - 3 Place the edge of the blade perpendicular onto the skin (Fig. 10).
 - 4 Make straight strokes while applying gentle pressure (Fig. 11).

- 5 Switch off and clean the product after each use (see 'Cleaning').

Trimming with comb

The click-on stubble combs allow you to trim hair to different lengths. This product comes with 4 click-on stubble combs: 5mm (3/16in.), 3mm (1/8in.), 2mm (5/64in.) and 1mm (3/64in.). Start with the 5mm (3/16in.) comb to acquire practice with this product. The indication on each comb corresponds to the remaining hair length in millimeters.

- Always make sure that the tips of the click-on stubble comb point in the direction in which you move the product.
- Make sure that the flat part of the comb is always in full contact with the skin to obtain an even trimming result (Fig. 12).
- Since all hairs do not grow in the same direction, you may want to try different trimming positions (i.e. upwards, downwards, or across). Practice is best for optimum results.
- Trimming is easier when the skin and hair are dry.

- 1 Place the comb onto the blade, with the teeth of the comb pointing upwards (Fig. 13).

Note: For best results, always trim in the direction of the teeth of the comb.

- 2 Switch the product on (Fig. 6).
- 3 Place the comb onto the skin and move the product upwards slowly, against the grain (Fig. 14).
- 4 Switch off and clean the product after each use (see 'Cleaning').
- 5 To remove the comb, hold it on both sides and pull it off the blade (Fig. 15).

Body

- For hygienic reasons, only use the body blade for trimming and shaving your body.
- For body trimming and shaving, make sure hair is clean and dry as wet hair tends to stick to the body.
- When shaving sensitive areas, always use the skin guard.

- Since all hairs do not grow in the same direction, you may want to try different trimming positions (i.e. upwards, downwards, or across). Practice is best for optimum results.
- For the best result, move the product against the grain.
- Make long strokes while pressing lightly.
- Use the product dry or wet with gel or foam, even in the shower.
- Shaving a clean body gives the best results.

Shaving with skin guard

For optimal performance, use the skin guard only on sensitive areas (for example the groin and armpits).

- 1 Hold the skin guard on both sides and press onto the blade (Fig. 16).
- 2 Switch the product on (Fig. 6).
- 3 Place the skin guard onto the skin and stretch the skin with your free hand. Move the product upwards slowly, against the grain (Fig. 17).
 - When using the product on your armpits, raise your arm and put your hand on the back of your head to stretch the skin.
 - Regularly remove cut hair from the guard. If a lot of hair has accumulated in the guard, remove it from the product and blow and/or shake out the hairs.
- 4 Switch off and clean the product after each use.
- 5 To remove the skin guard, put one finger under the edge of the guard and press on the blade with your thumb (Fig. 18).

Shaving without skin guard

The body blade without the skin guard allows you to shave hair on your body below the neckline (for example the chest).

- 1 To remove the skin guard, put one finger under the edge of the guard and press with your thumb on the blade (Fig. 18).
- 2 Switch the product on (Fig. 6).

- 3 Place the blade on the skin and move the product against the grain in long strokes while pressing lightly. Stretch the skin with your free hand.

Note: Make sure you hold the surface of the blade flat against your skin (Fig. 8).

- When you use the product on your armpits, raise your arm and put your hand on the back of your head to stretch the skin.

- 4 Switch off and clean the product after every use (see 'Cleaning').

Trimming with body comb

The 3mm (1.8in.) body comb allows you to trim hair on your body below the neckline (for example chest, armpits, groin).

- 1 Hold the body comb on both sides and press onto the blade (Fig. 19).
- 2 Switch the product on.
- 3 Place the comb onto the skin and stretch the skin with your free hand. Move the product upwards slowly, against the grain (Fig. 20).
 - Make sure that the flat part of the comb is always in full contact with the skin to obtain an even trimming result (Fig. 12).
 - When you use the product on your armpits, raise your arm and put your hand on the back of your head to stretch the skin.
 - Regularly remove cut hair from the guard. If a lot of hair has accumulated in the guard, remove it from the product and blow and/or shake out the hairs.
- 4 Switch off and clean the product after each use (see 'Cleaning').
- 5 To remove the comb, hold it on both sides and pull it off the blade (Fig. 15).

Cleaning

Clean the product after every use.

Never use scouring pads, abrasive cleaning agents or aggressive liquids such as gasoline or acetone to clean the product.

Do not tap the product or blade against a surface to remove hairs and water as this may cause damage to the product and blade (Fig. 21). If the blade is damaged, replace immediately.

Never dry the blade with a towel or tissue, as this may cause damage.

Cleaning the product

- 1 Switch the product off.
- 2 Remove any comb or skin guard from the blade (Fig. 15).
- 3 Blow off any hairs that have accumulated on the blade and/or combs.
- 4 Switch on the product for approx. 15 seconds while rinsing the blade with lukewarm water (Fig. 22).
- 5 Rinse the combs for approx. 15 seconds with lukewarm water.
- 6 Carefully shake off excess water and let all parts air dry completely.

Note: The blade is fragile. Handle it carefully. Replace the blade immediately if it is damaged.

This product has no other user-serviceable parts. For assistance call 1-800-243-3050.

Storage

Always attach the protective cap on the blade to protect the blade from damage during traveling or storage.

Attach the click-on body comb on the body blade to protect the blade from damage.

Make sure the product and attachments are completely dry before you store them for the next use.

- 1 Place the protective cap onto the edge of the blade (Fig. 23).
 - 2 Close the protective cap (Fig. 24).
- Be sure the product is switched off. Remove cord from outlet and the product before storing it in a safe, dry location where it will not be crushed, banged, or subject to damage.
 - Do not wrap cord around the product when storing.

- Store cord in a safe location where it will not be cut or damaged.
- Do not place or store the product where it can fall or be pulled into a tub or sink, water or other liquid while plugged in.

Blade wear indicator

For optimal cutting and gliding performance, replace the blade every 4 months or when it no longer provides the shaving or trimming results you expect. This advice is based on two full shaves a week and actual results may vary.

The blade is equipped with a blade wear indicator. A green bar will gradually appear on the blade as you use it (Fig. 25). When it is highly visible, it is recommended to replace your blade for the best OneBlade experience. Always replace the blade with original Philips Norelco blade (see 'Accessories').

Depending on your usage behavior, the exact lifetime of the blade could be longer or shorter. Similar to a manual blade, the blade becomes blunt over time, which results in increased hair pulling and reduced cutting performance.

Replacement

Replacing the blade

- 1 Switch the product off.
- 2 Carefully push the blade release slide switch upwards while holding the blade on both sides (Fig. 26). This will prevent the blade from flying away.
- 3 Hold the new blade on both sides and press it onto the handle ('click') (Fig. 27).

Note: Be careful, the edges of the blade are sharp. When you hear a click, the new blade is placed correctly and ready for use.

Accessories

Replacement parts and accessories may be purchased at a store near you or on our website **www.philips.com/store**.

The following accessories are available:

- Model QP210 Philips Norelco Replacement Blade, 1-Pack

- Model QP220 Philips Norelco Replacement Blade, 2-Pack
- Model QP230 Philips Norelco Replacement Blade, 3-Pack
- Model QP610 Philips Norelco Body kit
- Model QP620 Philips Norelco Face and Body kit
