WARNING DECAL PLACEMENT

This drawing shows the location(s) of the warning decal(s). **If a decal is missing or illegible, see the back cover of this manual and request a free replacement decal. Apply the decal in the location shown.** Note: The decal(s) may not be shown at actual size.

FREEMOTION is a registered trademark of ICON Health & Fitness, Inc.
 FORMULA 409 is a registered trademark of The Clorox Company.
 SIMPLE GREEN is a registered trademark of Sunshine Makers, Inc.

IMPORTANT PRECAUTIONS

⚠️WARNING: To reduce the risk of serious injury, read all important precautions and instructions in this manual and all warnings on your strength equipment before using your strength equipment. Freemotion Fitness assumes no responsibility for personal injury or property damage sustained by or through the use of this product.

1. It is the responsibility of the owner to ensure that all users of the strength equipment are adequately informed of all precautions, have read and understood all warning and caution labels, and are informed of how to use the strength equipment properly.
2. All users of the strength equipment should be instructed to report any injury or strength equipment irregularity to facility staff immediately.
3. Before beginning any exercise program, consult your physician. This is especially important for persons over age 35 or persons with pre-existing health problems.
4. Use the strength equipment only on a level surface. Cover the floor beneath the strength equipment to protect the floor.
5. It is the responsibility of the owner to ensure that there is enough space around the strength equipment for the intended exercise.
6. Using the anchor holes (see page 4), anchor the strength equipment to the floor to provide maximum stability.
7. Make sure that all parts are properly tightened before each use of the strength equipment.
8. Keep children under age 13 and pets away from the strength equipment at all times.
9. The strength equipment is designed to support a maximum user weight of 350 lbs. (159 kg); a maximum of 600 lbs. (272 kg) of weight, including a barbell; and a maximum total weight of 950 lbs. (431 kg). Note: The strength equipment does not include weights or a barbell.
10. Always wear athletic shoes for foot protection while exercising.
11. Always exercise with a partner. Your partner should be ready to catch the barbell if you cannot complete a repetition.
12. Use the strength equipment only as described in this manual.
13. Over exercising may result in serious injury or death. If you feel faint, if you become short of breath, or if you experience pain while exercising, stop immediately and cool down.

BEFORE YOU BEGIN

Thank you for selecting the FREEMOTION® OLYMPIC DECLINE BENCH strength equipment. The OLYMPIC DECLINE BENCH is designed to help you develop the major muscle groups of your upper body. Whether your goal is to tone your body or build dramatic muscle size and strength, the OLYMPIC DECLINE BENCH will help you to achieve the specific results you want.

For your benefit, read this manual carefully before you use the strength equipment. If you have

questions after reading this manual, please see the back cover of this manual. To help us assist you, note the product model number and serial number before contacting us. The model number and the location of the serial number decal are shown on the front cover of this manual.

Before reading further, please familiarize yourself with the parts that are labeled in the drawing below.

PART IDENTIFICATION CHART

This chart is provided to help you identify the small parts used in assembly. The number in parentheses below each part is the key number of the part from the PART LIST near the end of this manual. The number following the parentheses is the quantity needed for assembly. **IMPORTANT: If you cannot find a part in the hardware kit, check to see whether it has been preassembled.**

ASSEMBLY AND ADJUSTMENT

- Assembly requires two persons.
- Because of its weight and size, assemble the strength equipment in the location where it will be used. Make sure that there is enough clearance to walk around the strength equipment.
- Place all parts in a cleared area and remove the packing materials. Do not dispose of the packing materials until you finish all assembly steps.
- Left parts are marked “L” or “Left” and right parts are marked “R” or “Right.”
- To identify small parts, see page 5.
- Assembly requires the following tool(s) (not included):
 - an adjustable wrench 
 - a metric hex key 

Assembly may be easier if you have a set of wrenches. To avoid damaging parts, do not use power tools.

1. Identify the Left Frame (3) and the Right Frame (2) and orient them as shown.

With the help of another person, attach the Left Frame (3) and the Right Frame (2) to the Center Frame (1) with two M12 x 110mm Bolts (25) and two M12 Locknuts (29); **do not tighten the Locknuts yet.**

2. Identify the Left Upright (4).

Attach the Left Upright (4) to the Left Frame (3) with four M12 x 90mm Screws (28); **do not tighten the Screws yet.**

Attach the Right Upright (5) to the Right Frame (not shown) in the same way.

Make sure that the racks (A) on the Left and Right Uprights (4, 5) are aligned, and then tighten the eight M12 x 90mm Screws (28).

See step 1. Tighten the two M12 Locknuts (29).

3. Attach a Storage Bar (15) to the Left Upright (4) with an M12 x 55mm Screw (27).

Next, slide a Weight Bumper (18) onto each end of the Storage Bar (15).

Repeat this step on the other side of the strength equipment.

⚠ WARNING: Each Storage Bar (15) can hold up to 150 lbs. (68 kg). Do not place a total of more than 800 lbs. (363 kg), including the barbell (not included), on the storage bars and the racks. Always place the same amount of weight on both ends of your barbell.

4. Attach the Bench (9) to the Center Frame (1) with three M8 x 90mm Screws (23); **to avoid damaging the Bench, tighten the Screws only until the Bench does not move or feel loose.**

5. Loosen, but do not remove, the two M6 x 15mm Screws (24) in one of the Clamp Covers (11) on the Pad Tube (7). Then, remove the Clamp Cover.

Next, slide a Shin Pad (8) onto the Pad Tube (7), and insert the Pad Tube through the Leg Frame (6).

Next, slide the other Shin Pad (8) onto the Pad Tube (7), press the Clamp Cover (11) onto the Pad Tube, and tighten the two M6 x 15mm Screws (24).

Then, align the hole (B) in the Pad Tube (7) with the indicated hole (C) in the Leg Frame (6). Attach the Pad Tube with an M8 x 30mm Screw (26).

6. Attach the two Knee Pads (10) to the Leg Frame (6) with four M8 x 25mm Screws (22); **to avoid damaging the Knee Pads, tighten the Screws only until the Knee Pads do not move or feel loose.**

7. Pull the Adjustment Knob (13), insert the Leg Frame (6) into the Center Frame (1), and engage the Adjustment Knob into one of the holes (D) in the underside of the Leg Frame.

Next, tighten an M10 x 16mm Screw (12) into the Center Frame (1).

To adjust the Leg Frame (6), pull the Adjustment Knob (13), slide the Leg Frame to the desired position, and engage the Adjustment Knob into one of the holes (D) in the underside of the Leg Frame. **Push and pull the Leg Frame to make sure that the Adjustment Knob is engaged in one of the holes.**

8. **Make sure that all parts of the strength equipment are properly tightened.** To protect the floor or carpet from damage, place a mat under the strength equipment.

MAINTENANCE AND TROUBLESHOOTING

For optimal performance of the strength equipment and to reduce the chances of injury to users, you must perform preventive maintenance on a regular basis. Instruct all personnel to perform the procedures described in this section. Personnel must also record and report any accident. To maintain the strength equipment's warranty, use only FREEMOTION parts for repair or replacement. If there are any questions or concerns, see HOW TO CONTACT CUSTOMER CARE on the back cover of this manual.

DAILY MAINTENANCE

General Cleaning

Clean the strength equipment using a soft cloth dampened with a light solution of mild soap and warm water. If necessary, use a soft bristle brush with the cleaning solution.

Then, rinse the area thoroughly using a soft cloth dampened with clean water, and thoroughly dry it.

Difficult Stains

Spray the stain with a non-abrasive household cleaner such as FORMULA 409® cleaner, SIMPLE GREEN®, or a similar product. Rub the stained area gently and let the cleaning solution sit for a few minutes.

Then, rinse the area thoroughly using a soft cloth dampened with clean water, and thoroughly dry it.

Repeat these steps, if necessary, using a soft bristle brush.

Optional Method for Difficult Stains

Rub the stained area gently using a soft cloth dampened with rubbing alcohol.

Then, rinse the area thoroughly using a soft cloth dampened with clean water, and thoroughly dry it.

CAUTION: When using any cleaning product, try it first in an unnoticeable place to ensure that there is no damage to the material. Follow the directions and the safety precautions of the manufacturer of each cleaning product used. Freemotion Fitness and its vendors cannot be held liable for damage or injuries resulting from the use or misuse of cleaning products.

IMPORTANT: Do not use abrasive cleaners, which may scratch the strength equipment. Strong cleaners and abrasives will damage decals; use caution around decals. Do not use solvents such as lacquer thinner, kerosene, gasoline, or similar liquids.

WEEKLY MAINTENANCE

Hardware

Check all nuts and bolts, and tighten them if necessary. **IMPORTANT:** All FREEMOTION cushions have dense plywood supports with tee-nuts that are used to bolt the cushions to the strength equipment. Because the tee-nuts are held by the plywood, they will not withstand the torque that standard nuts and bolts will. When tightening the bolts securing a cushion, turn them only until they are snug and the cushion does not move or feel loose. Overtightening may strip the tee-nuts from the plywood and make it impossible to remove the cushion in the future.

Adjustment Knob

If the adjustment knob (A) sticks, it should be relubricated. Unscrew the knob and apply a light coating of lithium grease. Then, reassemble the knob as shown. If the adjustment knob still does not function properly, the spring (B) may need to be replaced. To order a spring, see HOW TO CONTACT CUSTOMER CARE on the back cover of this manual.

LIMITED WARRANTY

WARRANTY PERIODS AND COVERAGE

Freemotion Fitness warrants this product to be free from defects in workmanship and material under normal use and service conditions. Parts and labor are warranted for one (1) year, unless otherwise specified on the invoice.

The warranty period commences on the invoice date of purchase. Any parts repaired or replaced during this warranty period will be warranted for the remainder of the original warranty period.

CONDITIONS AND LIMITATIONS

The following will void the warranty on this product:

1. This warranty applies only to the original owner and is non-transferable.
2. The labor warranty applies only to products sold in the US and Canada. Contact your authorized Freemotion Fitness dealer for details on labor coverage in your country.
3. Any misuse, abuse, or improper service.
4. Users who weight more than the maximum user weight listed in this manual. Note: This product may not have a maximum user weight.
5. Damage caused by moving the product or improper storage including moving or storing the product on its side.
6. Use or storage of the product outdoors or in high-humidity environments including spa and pool areas.
7. Damage caused by improper wiring or insufficient electrical current. Note: This product may not have wiring.

This warranty shall not apply to the following:

1. Cosmetic items including grips, decals, and labels.

2. Pick-up and delivery or freight charges involved with a repair.
3. Any problem as a result of improper assembly or delivery.

WHAT TO DO IF SERVICE IS REQUIRED

Freemotion Fitness warranty service may be obtained by contacting the authorized dealer from which you purchased this product. Make sure to retain your original invoice and serial number information. If this product experiences a failure under the warranty terms set forth, Freemotion Fitness shall provide at their option either repair, replacement, or refund of the purchase price. Freemotion Fitness compensates service providers for warranty trips within their service area. You may be charged additionally for service calls beyond this service area.

Freemotion Fitness is not responsible or liable for indirect, special, or consequential damages arising out of or in connection with the use or performance of the product; damages with respect to any economic loss, loss of property, loss of revenues or profits, loss of enjoyment or use, or cost of removal or installation; or other consequential damages. Some regions do not allow the exclusion or limitation of consequential damages. Accordingly, the above limitation may not apply to you. This warranty gives you specific rights, and you may have other rights that vary from region to region.
