Capable and compatible.

The Power Extender Kit is compatible with most 24 VAC systems* and seamlessly integrates with our range of Smart Thermostats.

**Everything you need is in the box.**

Each Power Extender Kit includes everything needed for a smooth installation, with mobile setup instructions available by scanning the QR code on the box, along with safety, regulatory, and warranty information, plus a magnetic backing that allows it to easily tuck away in your furnace.

No common wire? No problem.

Skip the expensive common wire installation with our do-it-yourself ecobee Power Extender Kit. It's smart, straightforward, and a great way to save money. Plus, get the easy-to-use step-by-step installation guide by scanning the QR code on the box. Not sure if you need a PEK? Use the ecobee Thermostat Compatibility Checker at compatibility.ecobee.com.
