## GE® Plastic Interior Dishwasher with Top Controls

### FEATURES AND BENEFITS

**Third Rack** – This dishwasher with third rack storage lets you easily clean more items in fewer loads. It gives you extra loading flexibility with a place to wash and dry silverware, spatulas, lids and more

**Bottle Jets** – This dishwasher with bottle jets ensures a deep clean for tall items, narrow glasses, jars and more. In the upper rack, each of the four bottle wash jets direct water and detergent inside to effectively wash hard-to-reach areas

**Dry Boost™** – Dry Boost outperforms standard heated™ dry dishwashers by getting hard-to-dry items like plastics up to 3 times drier when compared to heated dry

**Active Flood Protect** – This dishwasher features Active Flood Protect, to prevent potential overflows for greater peace of mind. A water sensor alarm cancels the wash cycle before a flood may occur and alerts you with blinking lights and an alert tone.

**Smooth Touch Controls** – Touch controls are easy to wipe clean and offer simple, dependable cycle selection

**Wash Zone** – Wash a true half load in the upper or lower rack whenever you need to, instead of waiting on a full load. Just choose your wash zone: upper or lower. The feature works in combination with most cycles, saving you time and conserving energy

**Steam + Sani** – Save time with a steam and sanitize option that loosens tough soils before the wash cycle begins, so you get a complete wash with no pre-rinsing or soaking necessary. Plus, a sanitization cycle reduces 99.999% of bacteria on dishes.

**Autosense Wash Cycle** – This energy efficient dishwasher has an AutoSense Cycle that detects the soil level and amount of dishes, then automatically adjusts wash settings for the ultimate clean

**Powerful Wash Performance** – Get a complete wash with no pre-rinse, thanks to a variety of powerful clean wash cycles. No matter how many dishes you load or how dirty they are, rest assured you'll get spotless results every time.
