ALL FRIDGE

PRODUCT BENEFITS

Invisi-Touch Display® — Tap the glass and the exterior capacitive touch interface comes alive! No opening and closing your wine cooler door to adjust settings.

Temperature-Guided Ring — Increase or decrease the set temperature and watch as the hue of the temperature-guided ring changes to match your favorite beverages.

All-Refrigerator — Keep your beer and soda chilled to perfection with temperature ranges from 33F to 44F. The all-refrigerator offers 5 cubic feet of storage with space to store up to 105 beverage cans and 5 bottles of wine.

Tempered Glass Shelves — Two full-depth shelves and one half-depth shelf allows for the storage of large cartons, bottles, or open bottles of wine.

STAK Organizer — This patent-pending design will make you wonder how you ever stored cans and bottles without it. The curved platform cradles up to 12 cans or bottles and ensures bottles won't roll or slide — making it easy to stack multiples on top of each other.

Parametrical Lighting — Bold parametrical lighting fully illuminates the interior to display your contents. Choose between three different settings: Bank, Theater, and Energy Saver mode.

Self-Closing Door — The flush fit design with articulating hinged door integrates seamlessly with cabinets. The door comes standard with a self-closing hinge but in the event the door remains open a temperature alarm will sound. Right and left hand swing available.

Quiet Operation — 44 decibels

Temperature-Guided Rings
assist in temperature control

STAK Organizer allows easy
storage of up to 12 cans or bottles
